

We're writing a *story* that will be
told in *generations* to come.

From the day we started Whole Heart Ministries, the long story of Psalm 78 has always been in our minds—"That the generation to come might know, even the children yet to born." Since then, every book, workbook, conference, workshop, website, blog, podcast, mentorship, and message has told that story. Our four grown children are expressions of the story God put into our hearts as young parents. Whatever is ahead for this ministry, we will keep telling God's story of faith and family.

Help us to keep writing the *story*.

The generous financial support of like-hearted ministry partners enables us, as a faith ministry, to continue giving God's help and hope to Christian parents and families in the U.S. and around the world. If you share our hearts for the children, would you prayerfully consider partnering with us in this strategic ministry into the heart of the home. For more information, contact us or visit:

WHOLE HEART MINISTRIES

Your family story, just like ours, will grow as you add new chapters of faith.
We'll help you write a story of family faith that will be told for generations to come.

You can find *help* as a parent from any of our ministry *initiatives*.

Since 1994 our mission has remained the same—to give biblical help and hope to Christian parents to raise wholehearted children for Christ. Our mission field is the Christian home, and our ministry vision is focused on “keeping faith in the family.” The six ministry “initiatives” that follow (in red) shape and direct our ongoing efforts to help Christian parents.

MOM HEART MINISTRY

Since 2010, the heartbeat of Mom Heart Ministry has been to restore moms' hearts to God's heart for motherhood. We connect moms through a network of small groups and online communities to encourage and help one another. Whether it is mothers in the U.S. (Mom Heart) or around the world (Mum Heart), the goal is always to cultivate a movement of moms to strengthen families. With ministry training materials and leadership intensives we equip leaders to minister to other mothers.
